## CAREER OBJECTIVE

A passionate and results-driven recent graduate with a keen interest in software development. Equipped with expertise in Java Full Stack Development, web technologies, and database management, I am eager to contribute to an innovative team and apply my skills in an entry-level position. Focused on continuous growth, adaptability, and overcoming challenges in a dynamic and evolving industry

---

## WORK EXPERIENCE

### Software Developer Intern

Zithara Technologies, Hyderabad

07/2024 – 09/2024

- Developed dynamic web applications using Java, React.js, and Node.js, ensuring responsive UI and seamless UX.
- Designed and integrated RESTful APIs, improving application performance by 30%.
- Collaborated with cross-functional teams to analyze client requirements and deliver tailored solutions.
- Provided technical support, resolved bugs, and enhanced customer satisfaction by 25%.

---

## INTERNSHIPS

### Salesforce Developer Intern

05/2023 – 07/2023

- <https://www.salesforce.com/trailblazer/bejoy5>
- Developed and customized Apexclasses, triggers, and Lightning components to automate business processes.
- Managed custom objects, fields, and relationships to optimize Salesforce

### Salesforce Administrator Intern

08/2022 – 10/2022

- <https://www.salesforce.com/trailblazer/bejoy5> Developed and maintained
- Salesforce custom objects, fields, and relationships customized Apex classes and triggers to automate business processes

---

## TECHNICAL SKILLS

- **Programming Languages:** C, Java, Python
- **Web Development:** HTML, CSS, JavaScript, Bootstrap, React.js, Node.js
- **Database Management:** MySQL, MongoDB
- **Backend Technologies:** Servlets, JDBC, Spring Boot
- **Software Development:** Data Structures & Algorithms, OOPs & Collection Frameworks, System Design
- **Cloud Computing:** AWS (EC2, S3, Lambda), Salesforce CRM
- **Tools & Platforms:** GitHub, AWS

---

## PROJECTS

---

### Automatic Board Cleaner (IoT & Embedded Systems)

- Traditional board cleaning involves manual effort and time, especially for large surfaces like whiteboards or blackboards.
- Designed a motorized whiteboard cleaner controlled via Bluetooth (HC-05) and smart buttons.
- Reduced manual effort by 80% using a mechanical linkage system.

### AI Voice Assistant (Python)

- Developed a voice-controlled AI assistant that responds to voice commands.
- Built a voice-controlled AI assistant to play music/videos from local/online sources using speech recognition.

### Chatbot using Amazon Lex (AWS Cloud)

- I have implemented the chat box using Amazon Lex.
- Developed a text-based chatbot using Amazon Lex, defining intents and slots for natural conversations.

---

## EDUCATION

---

### B. Tech : Electronics and Communication Engineering

Ideal Institute of Technology, JNTUK

2020 – 2024

### Board of Intermediate Education, Intermediate in Science

Sri Chaithanya jr College, MPC

2018 – 2020

### Board of Secondary Education

Bhashyam (E.M) High School

2017 – 2018

---

## CERTIFICATIONS

---

Certification in Java Full Stack by (PacketPrep)

Certification in AWS Cloud Computing by (HoneyWell)

---

## ACHIEVEMENTS

---

- Successfully solved 60+ DSA problems, strengthening problem-solving skills and understanding of algorithms and data structures.
- Secured 2nd place in the Engineering Day 2023 technical project presentation at campus.
- Earned Java Full Stack Certification from PacketPrep Institute.

---
